

COLORADO
Department of Health Care
Policy & Financing

Dear Provider,

The Department of Public Safety (DPS) and Department of Public Health and Environment (CDPHE) are **evaluating how many homecare and home and community-based services (HCBS) workers who are eligible for vaccination in Colorado have yet to receive a COVID-19 vaccine**. Complete this brief [survey](#) to aid the State in identifying the scope of this issue so that we may determine next steps.

Complete only **one** survey per agency.

There will be notification by email when a vaccine may be available.

Homecare and HCBS workers meeting the following criteria are eligible for vaccination. The only health care workers who are not eligible are those providing telehealth services exclusively or who provide no direct patient care.

Phase 1B.1 - Inpatient and outpatient healthcare workers in moderate risk settings such as non-COVID hospital floors, dental offices, behavioral health clinics, pharmacies and **home health or HCBS providers** who have less direct contact with COVID-19 patients.

The information needed to complete this survey includes:

- Personal contact information
- Business contact information
- Number of home health aides employed by your agency
- Percentage of staff who have received at least one dose of the COVID-19 vaccine
- First name, last name and email address of staff who are in direct client contact who would like to be vaccinated when it becomes available.

Thank you,

Department of Health Care Policy & Financing
